Technology and promote sustainability for
socio-economic development

PROGRAM HIGHLIGHTS

Nashik, Maharashtra

Digital & Financial Literacy Program through SODES

SODES believes that digital and financial literacy are essential life skills in today's interconnected world. Through its network of SODES Digital Hubs, the organization is conducting Digital and Financial Literacy Training Programmes across the country to bridge the digital divide and empower communities. The interactive, hands-on Digital & Financial Literacy training sessions equip participants with practical skills in safe Digital device usage, online payments, online banking, Cybersecurity, access to government e-services, and MS Office applications.

The programme places a special focus on empowering women by engaging Self Help Groups (SHGs), ASHA workers, and women entrepreneurs. By building digital confidence and financial awareness, SODES enables participants to effectively use digital technologies for education, secure financial transactions, communication, access to government services, and sustainable livelihood opportunities, fostering greater social and economic inclusion.

Namakkal, Tamil Nadu

By strengthening digital confidence and promoting safe access to technology, SODES is bridging the digital divide and creating empowered, financially inclusive communities where technology serves as a pathway to sustainable social and economic development.

Varanasi, Uttar Pradesh

SODES Digital Library: Empowering Communities Through Digital Learning

The SODES Digital Library from Betul, Madhya Pradesh continues to bridge the digital divide by providing accessible, high-quality digital education to students, women, youth, and rural communities across India. With 100+ Digital Library Centres now operational nationwide, the initiative has empowered over 10,000 registered beneficiaries with essential digital skills.

Every day, the centres conduct digital learning sessions focused on computer education, digital literacy, and career-oriented skill development, enabling learners to build confidence and improve their employment opportunities.

Designed as safe and inclusive learning spaces, the libraries provide a supportive environment, especially for women and children, to explore technology and enhance their future prospects.

Through this growing network, SODES remains committed to creating digitally empowered communities and fostering inclusive socio-economic development across the country.

Enfold AI Cyber Security App Awareness Training Conducted through SODES

SODES conducted the Enfold AI Cyber Security App Awareness Training to strengthen digital safety and cyber awareness among community members. The interactive session introduced participants to the Enfold AI Cyber Security App and demonstrated how it helps users identify online threats, report cyber incidents, and adopt safe digital practices.

The training covered key topics such as cyber fraud prevention, phishing and scam detection, password security, safe internet browsing, social media safety, and the responsible use of digital platforms. Participants also received hands-on guidance on using the app's features to enhance their online security.

The initiative reflects SODES ongoing commitment to promoting cyber awareness and empowering citizens with the knowledge and tools needed to stay safe in today's digital world.

SODES Conducts Free Online Legal Consultancy Session

SODES organized a Free Online Legal Consultancy Session, extending expert legal support to individuals from across India. During the session, 34 legal cases from different states were heard by experienced SODES legal experts, who provided guidance, clarified legal rights, and suggested appropriate legal solution.

The session addressed a diverse range of matters, including family disputes, property issues, consumer complaints, cyber-related cases, labour concerns, and other civil legal matters.

By offering free and accessible legal consultation online, SODES continues its commitment to ensuring that timely legal assistance reaches people across the country, empowering citizens with the knowledge and confidence to pursue justice.

TOGETHER FOR IMPACT

SODES and NECTAR Join Hands to Advance Sustainability Initiatives

.....

The Society of Digital Entrepreneurs (SODES) has signed a Memorandum of Understanding (MoU) with the North East Centre for Technology Application and Reach (NECTAR) to collaborate on sustainability-driven initiatives. The partnership will focus on promoting Carbon Credits, Green Credits, and Extended Producer Responsibility (EPR) through awareness, capacity building, technology-driven solutions, and stakeholder engagement.

This collaboration marks an important step toward supporting India's environmental and climate goals by encouraging sustainable business practices, strengthening circular economy initiatives, and creating new opportunities for communities, entrepreneurs, and industries to participate in the green transition.

SUCCESS STORY

Khushi Sahu's Digital Learning Journey

Khushi Sahu from Pandhurna, Madhya Pradesh, is a shining example of how digital education can transform lives. After joining the SODES Digital Library, she gained practical skills in MS Word, MS Excel, MS PowerPoint, and basic computer operations through hands-on training.

Today, Khushi confidently uses digital tools for her education, career preparation, and everyday tasks. Her journey reflects the positive impact of SODES' Digital Library initiative in empowering young learners with essential digital skills and creating new opportunities for a brighter future.

"Digital skills are opening new opportunities for my future." — Khushi Sahu

Digital Literacy Certificate Distribution Ceremony Held in Itarsi, Madhya Pradesh

SODES organized a Digital Literacy Certificate Distribution Ceremony in Narmadapuram, Itarsi, Madhya Pradesh, recognizing participants who successfully completed the Digital Literacy Training Program. The certificates were distributed by SODES Member Ajay Manjaria, who congratulated the learners for their commitment to enhancing their digital skills.

The training equipped participants with practical knowledge of digital tools, online services, and safe internet practices, empowering them to confidently use technology in their daily lives, education, and career development. The ceremony celebrated their achievements and reinforced SODES' commitment to building digitally empowered communities across India.

VIKRAM *Saini*

Karauli, Rajasthan

SODES
**DIGITAL
CHAMPION**
OF THE MONTH

Vikram Saini, a Digital Entrepreneur from Karsoli Village, Hindaun, Karauli, Rajasthan, began his journey with SODES in 2024 with a clear vision—to make essential digital and banking services easily accessible to people in his village.

Through the SODES Digital Literacy Program, he has empowered villagers, including women, senior citizens, and members of self-help groups, with the knowledge and confidence to use digital payments and online services safely and effectively.

Vikram also actively mobilizes the community to participate in SODES' Free Legal Consultancy and Cyber Security Awareness initiatives, helping people become more informed and digitally secure.

To strengthen educational opportunities, he established a SODES Digital Library, providing students with access to digital resources for competitive exam preparation and skill development.

Today, Vikram Saini along with SODES is building a digitally empowered rural community, demonstrating how the dedication of a single Digital Entrepreneur can create lasting social impact and transform lives.
